

# X25

Autosteering

The X25 features the same farmer-friendly on-screen navigation menus, drag-and-drop mini-views and user configurable dashboard as its bigger sibling, the X30. It can simultaneously display 3 separate functions on-screen and is rugged, reliable, easy-to-use, and offers ISO compatibility. It allows adoption of precision farming practices into more operations to lower input costs, increase machine automation, and enable higher operational efficiency. The X25 is available with feature packages that provide flexibility for virtually any size operation.

A Powerful Console for  
Machine Control and  
Autosteering

## Much more than guidance and steering High Performance 8.4 inch Touchscreen Console.

The X25 touchscreen console is designed to offer high-accuracy autosteering and full-featured precision machine control for smaller cab environments or the more price conscious producer. With Basic and Advanced feature packages, it is designed to grow as needed, and is fully capable on any operation.

## Horizon Software brings unmatched cross- functionality and ease-of-use

Horizon has been developed by Topcon to be a unique user interface for agricultural applications that offers an easy interface with any of the Topcon X Family Consoles. Horizon allows users to move from one console to another and still experience the same views, buttons and intuitive interface. Allows a farm or custom application business to have all of their employees capable of operating any of their Topcon X Family consoles in any vehicle.

### Features / Advantages
